Dear Parents,

We are happy to bring back our Genetics class as part of the Self-Sustaining Program. If your child is interested in participating, please detach and complete the application below and return it with a check for \$75 made out to "MS67 Self-Sustaining Program" to the **main office** where your child will receive a time stamp upon submission. Seats are limited and will be granted on a first come, first served basis. Failure to bring your registration form and payment to the main office may result in a later time stamp. All registration forms are due by **Friday, February 12, 2016**.

Description: This class presents the fundamental principles of genetics, the molecular biology of the gene, and heredity in humans. Students will examine the experimental evidence leading to currently accepted concepts, and critically analyze the implications of various findings in human genetics. Students will perform experiments, watch new engaging research, and learn about much more.

Dates/Times: 8 sessions; Wednesdays from 2:25PM – 3:25PM; begins February 24, 2016.

Cost: \$75

Thank you,

Hank Schandel
Assistant Principal

-----TEAR OFF HERE-----
