Dear Parent(s)/Guardian(s) of 7th Grade Student,

Earlier this year, letters were sent home with all 6th and 7th grade students detailing how Math and Science grades in 7th grade would be monitored to ensure proper placement of students in grade-level or high school level Science and Math classes for 8th grade. Students who have achieved a minimum 85% combined average in 7th grade Math and Science by the end of this school year may be eligible for enrollment into a Regents Science and Math course and exam next year.

We are currently planning our course offerings for next year. Regents Science courses will be determined, in part, by student/parent preference. We would like your feedback on 8th Grade Regents science class preference (Living Environment or Earth Science). Kindly fill out the information on the slip below and return it to your child's 7th grade science teacher by Friday, February 15, 2019.

If you have any questions, feel free to reach out to your child's Science teacher or to a member of the Administrative Team.

Sincerely,

Taso Lampoutis

Return this slip to your child's current 7th grade Science teacher no later than Friday, February 15, 2019.

Student Name: _____ Current HR Class: _____

Options: Earth Science or Living Environment

1st Preference/Choice: _____

2nd Preference/Choice: _____

I understand that selecting a course preference does not guarantee a seat in that course. My child's placement will be based on his/her 7th grade Science average, his/her preference/choice, and seat availability in the Science Regents classes.

Student Signature: _____ Date: _____

Parent/Guardian Signature: _____ Date: _____
